

Planned Improvements to the play area in the Laigh Hills Park

“Stirling Council has made progress with a draft design for the play area at Laigh Hills park. They have met with the Landscape Architect on site to discuss current play provision and they have also considered the recent RoSPA (The Royal Society for the Prevention of Accidents) inspection report.

The community consultation completed as part of the Park Masterplan in 2014 has also been considered as there was a lot of feedback relating to aspirations for the play area. The money for the proposals is coming from housing developments in Dunblane over the past several years.

The Park Steering Group agreed that the draft plan could be posted on the Dunblane Community website for a period of approx. 2 weeks to allow community feedback. The plan will also be sent to Schools and Nurseries for comment.

Once we have completed the community consultation we can revise the plan accordingly and then progress with costing the agreed equipment and works. We will then be in a position to complete a tendering exercise to appoint a contractor to complete this project."
